- MS Visio
- Figma
- Python
- UML
- Use Case Diagrams
- MS Excel
- SQL
- Flask

KEY DIGITAL BANKING PROJECTS – SBI YONO 2.0

- **Debit Card Management**

Led requirement analysis for end-to-end debit card life cycle across physical, virtual, and wearable cards (Visa, Mastercard, RuPay).

Defined requirements for card activation, block/unblock, PIN reset, limits, and mandate management.

- **Recurring Payment Management (Mandate Platform)**

Worked on unified mandate management enabling creation, modification, pause, and cancellation of recurring payments.

Covered UPI mandates, bank accounts, debit cards, and loan EMI's with focus on compliance and customer control.

- **Fund Transfer Journeys – NEFT / RTGS / IMPS**

Defined requirements for quick transfer, scheduled payments, beneficiary management, and transaction tracking.

Ensured seamless customer experience with validations and statements across App and Web.

- **AI-Powered Documentation Automation Project | TCS – SBI YONO 2.0**

Collaborated with AI developers on prompt engineering for BRD, FRD, User Story, and CR document automation. Validated AI-generated outputs against banking documents to improve prompt accuracy and quality. Managed AI-driven documentation workflows including BRDs, FRDs, MoMs, Emails, and User Stories. Contributed to AI agent architecture discussions with working knowledge of Python-based frameworks.

PROFESSIONAL EXPERIENCE

Diverse Lynx India Pvt. Ltd - Senior Business Analyst

Jan 2024 - Present

Client - TCS (SBI YONO 2.0)

- Business Analyst for SBI YONO 2.0 Digital Banking Platform across Mobile App, Web, Branch Portal, and FOS.
- Owned end-to-end delivery of modules including Debit Card Management, Recurring Payments, Re-KYC, TDS, NRE/NRO, NRI PIS, Registration & Login.
- Elicited, analyzed, and documented 50+ BRDs, FRDs, epics, and user stories, ensuring full requirement traceability.
- Led gap analysis for regulatory and onboarding journeys, improving compliance and reducing manual effort.
- Defined functional requirements for payment flows, validations, limits, charges, and exception handling.
- Facilitated Sprint Planning, Backlog Grooming, and Daily Stand-ups in Agile environment.
- Managed SIT and UAT cycles, achieving 90% defect resolution prior to go-live.
- Collaborated with UX and development teams to enhance customer journeys and reduce drop-offs.

TCS – SBI YONO 2.0 - AI-Powered Documentation Automation Project

- Collaborated with AI developers on prompt engineering for BRD, FRD, User Story, and CR document automation.
- Validated AI-generated outputs against banking documents to improve prompt accuracy and quality.
- Managed AI-driven documentation workflows including BRDs, FRDs, MoMs, Emails, and User Stories.
